When you receive a professionally designed arrangement, you want to enjoy it for as long as possible. With just a little care, you can extend the bloom time of your flowers and keep them looking fresh.

Pro Tips:

🌹 **Refresh the water daily.** Even in foam or a vase, clean water is the secret to long-lasting blooms.

🌹 **Give them a cool spot.** Keep your arrangement away from direct sunlight or heat vents — flowers last longest at room temperature.

Small steps make a big difference in how long your flowers bring beauty into your space.

Is it time to refresh your space? See our selection of flowers and plants - one is certain to bring you joy!
