As we gather with friends and family this Thanksgiving, it’s the small touches that make the day feel special. Flowers bring *warmth, gratitude, and the rich beauty of the season* right to the table. 🍁

Whether you’re hosting at home or sending love across the miles, *autumn blooms are a delightful way to say thank you* and to celebrate togetherness.

A centerpiece is a classic choice. *Seasoned with Sunshine* is a popular selection for Thanksgiving.

Or go whimsy with an adorable pumpkin themed arrangement. *Pumpkin Daze* will bring a smile to your guests.
